

proteintech®

Immunoprecipitation and Western Blot Workshop

Monday 8th December, 14:30-15:30

IMB Seminar Room

Take a deep dive into the IP and WB workflows, and learn from Proteintech's 20 years experience as antibody and NANOBODY® experts. Suitable for those just starting, right up to immunoassay pros; this workshop will help you understand the science behind the workflow, optimize your protocols, and tackle complex troubleshooting.

Features:

- In-depth Q&A
- Certificate of attendance
- Product samples*

*T's and C's apply - email Ezgi Akidil (ezgi@ptglab.com) for more info!
